

HONEYFARM WATER MAIN UPGRADE

Client: Sunshine Coast Council | Duration: December 2020 – May 2021

Project Description

NPG Contracting was awarded the Honeyfarm Road Water Main Upgrade project by Sunshine Coast Council to provide approximately 1900m of newly installed 180mm water main to feed the future Honeyfarm Road Sporting Development. The works included:

- Erosion and Sediment Control
- Traffic Control
- Pipe Trenching and Backfill
- Under boring and grouting
- HDPE Pipe Welding
- Pipe Testing and Disinfection
- Landscaping and reinstate of concrete pathways

Included in the scope of works was the under boring of the TMR controlled Caloundra Road, requiring a section of line approximately 170m in length of 350mm pipe for encapsulating the 180mm water main from the southern to northern sides of the busy Caloundra Road.
