

SCURRS CARPARK

Client: Geocal | Duration: August 2023 – May 2024

Project Description

NPG provided the construction of the commercial development carpark including stormwater, sewer and water connection and carpark for our valued client - Geocal.

The works included:

- Erosion and Sediment Control
- Earthworks
- Stormwater installation
- Sewer & Water Connection
- Asphalt works and Line Marking
- Concrete Crossovers and Kerbing

The carpark and stormwater were completed with a bespoke SPEL Stormwater Tank installed as part of our scope. Geocal and NPG continue to work together over the long-term given the way our values align allowing trust and ease in delivery of all scope we perform for them.
