

NPG

QRA PACKAGE 3 – HOVARD RD - LANDSLIP

Client: Sunshine Coast Council | Duration: January 2024 – April 2024

Project Description

NPG's experience in landslip rehabilitation was utilised by our valued client to undertake the QRA Package on Hovard Road Bald Knob. The approximately 2,500m³ landslip zone was rehabilitated with works including:

- Erosion and Sediment Control
- Earthworks
- Rockfill Replacement
- Stormwater installation
- Pavement

The works were inundated with heavy rain across the first half of 2024 which NPG was able to work through to ensure the works were able to be completed on time and without any incidents. Our expert team completed the project with zero defects at Practical Completion.
